Sirs

Your letter enclosing check rec'd. we are surprised at the small valuation you put on the coins & money we cannot accept your offer for them, as to the piece of ring money which you value at \$1.00 will say that it was excavated by an uncle of ours some forty years ago in Persia he was a missionary there and was digging for an oven an earring found in the same grave at the same time was sold by him in New York for \$3.00. this piece of ring money has been examined by expert Antiquaries and pronounced of genuine Phoenician Manufacture if it is an imitation it is not worth anything but if it is genuine (which it is) it is certainly worth more than \$1.00. As to selling the coins & money at Auction will say that if we could not have the assurance of realizing several times what you offer for them we would not want you to sell them
